

At Latched Beginnings, we specialize in helping infants and families overcome feeding challenges with expert care and a compassionate touch. Led by Dr. Kacie Culotta, a laser-certified dentist and lactation counselor and most importantly a Mom of 2 herself, our team is dedicated to providing the highest quality care for tongue, lip, and buccal ties, ensuring that every baby has the best start in life.

Our practice focuses on **comprehensive infant care**, including:

- CO2 Laser Tongue-Tie and Lip-Tie Releases – Precise, gentle procedures for improved feeding and airway health.
- In-Person Consultations – Personalized assessments to uncover and address feeding difficulties.
- Post-Op Care and Feeding Support – Step-by-step guidance for recovery and optimal oral function.
- Collaborative Approach to Whole-Body Wellness – Working with lactation consultants, bodyworkers, and other specialists to support your baby's health.

We know how important it is to feel heard and supported during this journey, and we're here to walk alongside you every step of the way. If you're looking for expert care in a warm, understanding environment, **schedule a consultation today**—we look forward to meeting you and your little one!
